ADMINISTRATION

These seven men have volunteered and accepted the challenge of helping our school. Thanks for the job well done. Dragon fans, your

Board of Education

Standing: Leroy McKeever, Kenneth Richey, Eugene Bowyer, Jim Hand. Seated: E. E. North, Jr., Vice-President, Wendell Berry, President, Bill Hartsell, Secretary.

The purpose of this annual is to preserve for you some of the memories of this 1973-74 school year. Thanks to the members of the annual staff for their long hours of work putting this yearbook together. Congratulations on a job well done.

My thanks to the faculty and student body for your co-operation and help in making this a memorable year.

I hope that we have in some way contributed something to make each of you a better citizen and a more knowledgeable individual.

Sincerely yours,

Harvey W. Compton

Harvey Compton

High School Principal

The role of education in our society is to prepare each student with a salable skill for the big game of life. The rules and regulations are placed on each student to aid them in the future. The success or failure experienced in your years in public school is an excellent predicator of what the future holds. The school is placed in our society for the student and should this ever cease to be the purpose, then the entire educational system will fail.

To you, the senior class, may you succeed in whatever your endeavors may be, and may you realize what the citizens of the community contributed to your success.

The remainder of the student body will continue with their education and achieve the highest goal possible. The ladder of success has its trying moments, but you should never lose sight of your goals.

The annual staff is to be commended for its efforts in leaving a pictorial document which each student should cherish in the future.

Sincerely yours,

Raymond Trotter

Elementary Principal

The primary function of education is to bring about change and progress. This change should be of each individual's thoughts, actions, and attitudes. This progress should be for the betterment of ones-self and others. The basic outcome should be the realization that—"Life is what you make it."
